

## INTERIOR ENVIRONMENTS

# COLLEGE INTERNSHIP PROGRAM

AOS Interior Environments is a full-service provider of manufactured interior construction, commercial furniture, and storage solutions. Our collaborative approach to workplace design results in precise solutions carefully attuned to each client's mission. As the largest design-assist FF&E (furniture, fixtures and equipment) contractor in Louisiana and Mississippi, we have been successfully partnering with our clients and the architectural community to create sustainable spaces for over 45 years.

- > EXPERIENCE** As an intern you will experience a commercial design project from the planning phase through installation. You will be invited to sit-in on client presentations, explore resources, meet with vendors, assist designers, and shadow our designer/project managers and installers. Most importantly, you will be given the opportunity to learn to from an award-winning team of professionals.
  
- > CONNECT** We put our minds together, stay engaged with each other and share our knowledge and experiences across AOS to deliver the most value to our clients. Throughout your internship, you will be immersed in the rich culture of our firm and broader design community through a number of events and unique learning opportunities.
  
- > GROW** We believe the best way to learn is to dive right in. As an intern you will be actively engaged and invited to experience a wide variety of activities including:
  - » Presentations and project meetings
  - » Installation walk-throughs
  - » Fabrics and finish selections
  - » Lunch-and-learns
  - » Sit tests and product samples
  - » Client and community events
  - » Field measurements and site visits
  - » Special projects (as needed)

**> APPLY** Interested? Please send your cover letter, resume and portfolio to Eve Arnold at [e.arnold@thinkaos.com](mailto:e.arnold@thinkaos.com)
